For more information on this product, please refer to www.carnegroup.com or call + 352 26 73 23 54.

BREVAN HOWARD ABSOLUTE RETURN GOVERNMENT BOND FUND is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Accurate as of: 31 March 2025

What is this product?

Type

The product is a share in the Brevan Howard Absolute Return Government Bond Fund (the "Fund"), a sub-fund of the Coremont Investment Fund (the "Company"). The Company is an investment company with variable capital organised under the laws of Luxembourg and is authorised as a UCITS for the purposes of the UCITS Directive.

You are about to purchase a product that is not simple and may be difficult to understand.

Term

This Fund is suitable for medium to long-term investors; you should be prepared to stay invested for at least 5 years. The product has no maturity date. The Fund may be dissolved at any time by a resolution of the general meeting of Shareholders. Further details can be found in the Company's prospectus.

Objectives

Investment objective

- The Fund seeks to deliver positive total returns on a rolling twelve month basis with stable levels of volatility uncorrelated to bond and equity market conditions.

Investment policies

- The Fund is actively managed. This means that the investment manager has full discretion over the composition of the portfolio. The Fund is not managed in reference to any benchmarks.
- The Fund may obtain its investment exposure through direct investments or through the use of financial derivative investment. Each derivatives' return is linked to movements in the underlying asset.
- The asset classes in which the Fund may invest include, but are not limited to government bonds and other debt securities, such as debt securities issued by major international institutions, bonds of highest credit quality issued by government agencies or banks in G10 countries explicitly guaranteed by national governments.
- The Fund may use financial derivatives instruments (such as futures, forwards, swaps, including caps, floors and credit default swaps, options and contracts for differences) referencing the above assets.

Share Class Benchmark

Benchmark uses The Fund is not managed in reference to any benchmarks. However, a benchmark of comparison that the investment manager deems appropriate is Bloomberg US Treasury Index (Ticker LUATTRUU Index). The benchmark exhibits similar volatility and is correlated with the Fund.

Redemption and Dealing Shares in the Fund may be redeemed upon demand. Shares may generally be bought and sold on days that are business days in Luxembourg, London and New York.

Distribution Policy The Fund offers both accumulation shares and distribution shares as detailed in the Practical Information section. The Fund will not declare dividends in respect of the accumulation share

classes and all income and gains will be reinvested by the Fund in accordance with its investment objective and strategy. The Fund will declare dividends in respect of the distribution share classes and the income and gains for the Fund's financial year will be calculated and distributed to relevant shareholders. The administrator will send a notice with details of the distribution prior to it being made.

Intended retail investor

The product is not specifically intended for retail investors. An investment in the product is suitable only for investors that are capable of evaluating the merits and risks of such an investment, who understand the potential risk of capital loss for whom an investment in this investment fund constitutes part of a diversified investment portfolio, who fully understand and are willing to assume the risks involved in investing in the investment fund and who have sufficient resources to be able to bear losses (which may equal the whole amount invested) that may result from such an investment. Accordingly, typical investors in the investment fund are expected to be experienced investors, institutional investors, high net worth investors and other investors who have taken appropriate professional advice and understand the risks involved in investing in the investment fund.

Practical information

Depository The Fund's depository is State Street Bank International GmbH, Luxembourg Branch.

Further information A copy of the prospectus (the "Prospectus") and latest annual and semi-annual financial reports in English and the latest Net Asset Value per Share and Bid and Offer Prices are available free of charge upon request by email from investor.relations@brevanhoward.com.

Pursuant to Article 181 of the Luxembourg law of 17 December 2010 on undertakings for collective investment, the Fund corresponds to a distinct part of the assets and liabilities of the Company, i.e. the assets of the Fund are exclusively available to satisfy the rights of investors in relation to the Fund and the rights of creditors whose claims have arisen in connection with the creation and operation of the Fund. Shares in the Fund may not be exchanged for those of any other sub-fund of the Company. Further details can be found in the Prospectus.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of Carne Global Fund Managers (Luxembourg) S.A. to pay you.

Be aware of currency risk. Depending on the share class you hold, you may receive payments in a different currency, and if so the final return you get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the Fund performance. Please refer to the Fund prospectus, available free of charge by emailing investor.relations@brevanhoward.com

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are simulated illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Note: This product was launched on 12/07/2019. These illustrations take into account historical performance of the product and also use the performance of the Bloomberg US Treasury Index as a proxy for the period prior to the launch of the product.

The **Stress** scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between January 2015 and January 2020.

Moderate: this type of scenario occurred for an investment between June 2019 and June 2024.

Favourable: this type of scenario occurred for an investment between November 2019 and November 2024.

Recommended holding period		5 years	
Example Investment		10,000 USD	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	8,010 USD -19.9%	7,480 USD -5.6%
Unfavourable	What you might get back after costs Average return each year	9,720 USD -2.8%	10,720 USD 1.4%
Moderate	What you might get back after costs Average return each year	10,460 USD 4.6%	13,150 USD 5.6%
Favourable	What you might get back after costs Average return each year	11,250 USD 12.5%	14,490 USD 7.7%

What happens if Carne Global Fund Managers (Luxembourg) S.A. is unable to pay out?

If the Fund is not able to pay you out what is due, you could lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality. To protect you, the assets and liabilities of the Fund are segregated from those of the other sub-funds and from those of the manufacturer or the depositary. Should the Fund be unable to pay you out what is due, the depositary would liquidate the investments and distribute the proceeds to the investors.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 USD is invested.

Example Investment 10,000 USD	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	129 USD	646 USD
Annual cost impact*	1.3%	1.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.0% before costs and 5.6% after costs.
